

Celebrate with new Italian Wines from Le Marche to Molise
both on the Adriatic Coast

Le Marche is famous for it's olives and olive oil and of course it's fantastic wines!

*Giovanni **Carminucci** established the Estate in 1928 and it is now run by his son.*

The high quality vineyards are near Ascoli Piceno and are cultivated using organic principles, herbicides and pesticides are not used. Yields are kept intentionally low which combined with a modern approach in the winery help win multiple Italian awards and offer good value!

The coastal breezes aerate the vines keeping them healthy providing a quintessential expression of the land suspended between the sky and the sea. The passionate, skilled and energetic wine-maker is producing some top quality wines.*
